OBJECTIVE

A software development enthusiast with a strong foundation in web development and modern software technologies. Seeking to leverage my technical skills and problem-solving abilities to contribute to innovative projects, support organizational growth, and build a career in software development.

EDUCATION

Dr. G.R.Damodaran college of science

Bachelor of Computer Applications ; Percentage - 64.43 2023-2026

HSC

Paavai Vidhyashram School(CBSE); Percentage - 66 2022-2023

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend Technologies: HTML5, CSS3, React.js

Backend Technologies: Spring Boot

Database: MySQL

Tools & Technologies: Git, GitHub, Postman, IntelliJ IDEA, VS Code

PROJECTS

Vehicle Re-Identification & License Plate Recognition System

Developed a deep learning-based system for vehicle and license plate detection using YOLOv8. Implemented OCR with EasyOCR to extract license plate text under real-world conditions and built vehicle re-identification using CNN models for visual feature analysis. Utilized Python, TensorFlow, OpenCV, YOLOv8, and EasyOCR for development and image processing.

Hospital Appointment Booking Website

Developed a responsive healthcare website featuring doctor profiles, medical services, and an online appointment booking system. Implemented form validation and interactive UI features to enhance user experience using HTML, CSS, JavaScript, and Vite.

Personal Portfolio Website

Developed a responsive portfolio website using React.js, HTML, CSS, and JavaScript. Implemented smooth scrolling navigation, resume download functionality, and social media integration. Designed an interactive and user-friendly interface optimized for desktop and mobile devices.

CERTIFICATIONS

- Full stack Development (JAVA) - Career Ladder
